

Funding the new Malaysia production line

Aviura is a UK-based advanced materials company with a production facility in Malaysia, serving plastic manufacturers and converters across a range of applications: antimicrobial, antistatic, anti-fog, UV stabilisation and colour masterbatch.

FUNDING MAP · UK + MALAYSIA · SEPTEMBER 2026

THE QUICK WIN

Three moves to make first

MIDA New Incentive Framework
Up to 100% ITA

Live since 1 Mar 2026. Investment Tax Allowance up to 100%, or a tax rate as low as 0%, for up to 15 years. Open to foreign-owned companies.

GTFS 5.0 via a Malaysian bank
Closes 31 Dec 2026

Government guarantees 60–80% of the green part of the financing, such as energy-efficient machinery.

MIDF soft loan + SAG MADANI
RM20m loan · RM1m grant

Loan for machinery and automation; grant matches automation spend 70:30. Both need at least 51% Malaysian ownership.

FUNDING HEAT MAP

Equity partners	POSSIBLE Strategic or local partner	POSSIBLE Private equity or strategic investor

* Requires at least 51% Malaysian ownership of the entity. Weak fit Possible Strong Priority

NEXT 30 DAYS

Who does what

Finance	Operations	Technical	Marketing
- Confirm the Malaysian entity's ownership split. - Request a MIDA pre-assessment for the new line. - Get GTFS terms from two banks before 31 Dec.	- Final equipment list with supplier quotes. - Energy and waste figures for the new machinery.	One-page line specification: capacity, grades, automation level.	- Letters of intent from two or three customers. - Short Aviura profile for funder meetings.

Heat ratings are an assessment based on public sources (MIDA, GTFS, MIDF, MASTIC, UK Export Finance). Scheme terms change; confirm with each agency before applying.
